

How to Make SSH Keys

Charlie Jung

January 16, 2019

1 Introduction to SSH Keys

On Host Machine:

1) Run

```
ssh-keygen -t rsa -b 4096
```

Hit enter twice.

Now, copy `id_rsa.pub` into `/.ssh` (remote machine)

On Remote Machine:

copy `id_rsa.pub` into `/.ssh/authorized_keys`

Enter the following commands:

```
chmod 700 ~/.ssh  
chmod 600 ~/.ssh/*
```

–End–
